Date of birth: 15 / 07 / 1991

PROFILE

Computer Engineer: Front-End and Web Application Developer with a Bachelor's Degree in Computer Engineering in Seville, with high level of use of programming environments (Eclipse, Oracle SQL Developer), programming languages (Java, SQL, Python) and web development (HTML5, CSS3, PHP, JavaScript, jQuery, Elgg). Currently working in personal projects like Android apps, videogames with Unity 3D and SPAs using external APIs (Spotify, Echo Nest...), JavaScript frameworks (jQuery, AngularJS, Handlebars.js...), Bootstrap and modern web development techniques. With high level of English both written and spoken practiced abroad, knack for teamwork, enthusiasm for web design, imagination, creativity, proactivity and great public speaking.

EXPERIENCE

March 2015 – October 2015: BABEL Sistemas de Informacion, Madrid, SPAIN.

Title: Junior Java Developer in one of our clients (TIREA) for the project SENDA, a web application for insurance fraud detection using data analytics. Developed in Eclipse and Oracle SQL Developer with Java, HTML5, CSS3, Struts, JavaScript, jQuery, SQL and Spring.

June 2014 - December 2014: BABEL Sistemas de Informacion, Seville, SPAIN.

Title: Social network developer doing an internship in the Internal Applications department using Elgg, PHP, HTML5, CSS3, jQuery, AngularJS and JavaScript.

September 2013 - Currently: PLASMA TOY Studios, Seville, SPAIN.

Title: CEO and founder of PLASMA TOY Studios, an indie videogame studio developing its first game (in which I am Lead Project, Scriptwriter, Level Designer and Programmer with Unity 3D).

EDUCATION

October 2015 – Currently: Master's Degree in Digital Solutions Development from the Barcelona Technology School and the University of Barcelona.

September 2009 – June 2015: Bachelor's Degree in Computer Engineering (Information Technology) from the University of Seville.

LANGUAGES

Spanish: Native, both comprehension and expression.

English: High, both comprehension and expression. 96/120 TOEFL iBT 2015.

COMPUTER SKILLS

Web Development: High (CSS3, Bootstrap, PHP, HTML5, Elgg, JavaScript, jQuery, Handlebars.js).

Programming: Intermediate (Java, SQL, Python, C#, Objective-C).

Mobile App Development: Basic knowledge of Android apps and iOS apps development.
